GRADE 10 - VET HOSPITALITY NEWS
Following on from work on Hygiene, (personal hygiene, food hygiene and kitchen hygiene), students will now move on in Term 2 to learn and experience making canapés, entrée, stock, soup and main course cookery. This area of learning is always eagerly anticipated as it allows students to cook, taste and learn about comfort food in the winter months, whilst increasing their preparation and knife skills. Students will also learn how to present their dishes and develop an understanding of the visual appeal that is required if preparing food in a commercial situation.
The dates have been set for Work Experience in the Hospitality field (Week 12 – 16th July). All students should be discussing with their parents/carers possibilities for placement, if they have signed and advised that they are undertaking this certification in VET Studies. If you have any questions regarding this aspect of the course, please contact Mrs. O’Neil (VET Co-Coordinator) or Mrs McInnes (VET Teacher).

GRADE 9 FOOD STUDIES NEWS
At the start of this term, Grade 9 food students will be completing their unit on carbohydrate foods and handing in their assignment work on this area of learning. This unit will be followed by work on pastry.

GRADE 9/10 CHILD STUDIES NEWS
Baby Bella (the simulated baby) will now be allowed to be taken home to give students an understanding of the demands a new baby can make on his/her carer. Thank you to all those parents who have signed the permissions slips to allow their child to experience this valuable learning experience. If you have not seen or signed this form, please ask for it. It would be appreciated if these forms could be returned to Mrs McInnes as soon as possible, as Baby Bella CAN NOT go home with students until these forms have been signed and returned.
Learning this term will encompass how to care for babies, the demands and the development of learning and play.
Grade 10 Students will be investigating and looking in-depth at child growth and development to build an understanding that will provide the base for further study should they wish to undertake Child Care as a career.
